# About Us

"Our company, ONLY FLOWERS, was created by two young entrepreneurs with fresh and innovative ideas. They dreamed of bringing traditional flowers from the fields of eastern Antioquia to international destinations.

Our goal is to send our beautiful flowers to accompany each client on their special dates, creating memorable moments and providing the ideal way to express their feelings.

We are a farm responsible for producing and commercializing traditional flowers from the fields of Eastern Antioquia (Colombia - Medellin - Carmen de Viboral), ensuring environmental sustainability, and providing opportunities for development for our farmers and their families.

Currently, our main markets are the Arab Emirates, South Korea, Spain, and the United States. We aim to expand to other markets and cultures.

We guarantee quality and health standards from the place of origin to the final destination, regulated by the National Anti-Narcotics Directorate of the Police and the ICA (Colombian Agricultural Institute).

Our main pillar is customer satisfaction, so we work diligently on the quality of our flowers and provide continuous support to ensure excellent service, fostering lasting and close business relationships.

As a company, we are committed to our employees, customers, and the environment. That's why we strive every day to improve the quality of life for our customers."
