Only Flowers
Nature in your hands

About US

ONLY FLOWERS was founded by two young entrepreneurs with a vision to bring the vibrant blooms of Eastern Antioquia, Colombia, to international markets.

Our farm in El Carmen de Viboral is dedicated to producing high-quality flowers while promoting environmental sustainability and supporting our farmers' well-being.

With a strong presence in global markets like the United States, United Arab Emirates, South Korea, Spain, China, and England, we ensure our flowers meet rigorous quality and health standards, regulated by Colombia's National Anti-Narcotics Directorate and ICA.

To better serve our U.S. clients, we launched Only Flowers Imports, offering direct sales without intermediaries.

This allows us to deliver fresher flowers at competitive prices, straight from our farm to your door.

Our commitment to quality, customer satisfaction, and sustainability drives everything we do — ensuring each bloom reflects our dedication to excellence.

White Variety

Presentation

Mini white - Select -
Premium

White hydrangeas are known for their timeless elegance and delicate charm.

Their lush, voluminous blooms feature pure white petals that create a sense of freshness and sophistication. making them an ideal choice for both classic and contemporary designs.
